

“IAITO INFOTECH, RFID Solar PV Industry Solution get awarded in RFID Journal Live 2011”

IAITO INFOTECH, IIT Kanpur, India--(Press Release)—April 21, 2011—We are delighted to announce that our RFID based Solar PV solution awarded as **1st Runner-up** in RFID Journal Award 2011, Orlando FL, USA under the category of **“Green Award”**.

Waaree Energies is one of the esteem clients who used IAITO solution an awardees' for it. This is the first time any Indian company has been awarded as 1st runner-up by a reputed premier RFID event in the world said *Mr. Hitesh Doshi, Chairman, Waaree Group*.

On the other hand “We appreciate to Waaree Energies who gave us an opportunity to work jointly with them and to come out with fully tested turnkey solution. This application is being used by more than 15 clients and will give a level of confidence and satisfaction”, said *Mr. Mukesh Singh, Director, IAITO*.

About RFID Journal Awards were created by RFID Journal to recognize the leaders in deploying RFID technologies, and to foster adoption of these technologies by highlighting the best deployments. Each year, the editors of RFID Journal select an independent panel of judges to evaluate entries and choose the winners. The winners are announced at our annual RFID Journal LIVE! Conference and exhibition in April. Each winner will receive a crystal award at the conference and be featured in RFID Journal magazine.

About Waaree Energies

WAAREE Energies Private Limited (WEPL) was formed in 2007 by the promoters of The WAAREE Group of Companies to begin its foray into Renewable Energy. Solar PV modules from 3Wp to 250Wp are manufactured on State of Art automatic module production line at Surat SEZ , India. The modules are installed on various Off-grids & on-grid applications, and are exported to a number of countries globally. PV modules provided by Waaree Energies are TUV, IEC61215, IEC61730-2, ETL and Safety Class II standards. Waaree Energies is also involved in MW solar Farms and soon to increase their installed capacity to 100 Mw.

About IAITO (www.iaito.co.in) (ISO 9001:2008 Company) provides state of the science tracking and locating solutions for embedded system as well as advanced applied *Radio Frequency Identification* (RFID) systems.
